Ultra fine (<0,4µ) solid carbide.

Material suitability see p71  
Cutting data see p99

# Milling Cutter Service

At Elite we now produce custom-made, multi purpose tools which do the work of several standard tools. Entirely CNC ground, the tools will perform with absolute consistency.

**Benefits include:**

- Reducing your production costs
- Shorter lead times
- Lower tooling stocks
- Better quality components

With large stocks of semi-finished blanks and computer aided design and manufacture, we can produce the tool you need, from design to delivery, in 3 working days.

For more details see page 97.
